22 Harvest Queen Entrants Will Compete In Talent Contest Here This Saturday Night

Twenty two of the 45 entrants in the Harvest Queen contest will display talents on Saturday night, March 26 preliminary to the judging for the main event.

According to the lineup there will be vocal and piano music, there will be dancing of the "Go Go" style, ballet, modern ballroom, & the specific Cuban style. Recitations, pantomime, & readings will be the offering of several, while vocal expression will be augmented by self-accompaniment, in a number of cases.

Anyhow, the girls will be sincerely demonstrating talents, and we are sure, more real entertainment will be offered than a star-studded TV extravaganza.

Come out and root for your favorite, or for all of them — they'll appreciate your presence, and your dignified or boisterous applause.

If you are hard of hearing, come for sure, for your

eyes will feast on the pulchritude of the Glades, and THAT'S SOME PULCHRITUDE!

The contestants are:

Charlotte Allen — Skit

— The day in the life of a teenager.

Sandy Pierce — Modern Dance — "Dances Ala Go"

Tommy Branch — Vocal solo and will accompany self on Baritone Uke.

Diane Jones — Pantomime — "In the Girl from Wolverson Mountain"

Following the final judging.

Weaver Proposes New 441 Leaving 80 As Farm Road

Commissioner Weaver's announced trip to Washington to secure Federal matching funds for construction of a newly located US No. 441 from the Glades, anticipates that State Road No. 80 will remain as is, an agricultural road serving the farmers, according to information given THE HERALD Wednesday.

The Commissioner proposes to approach the Defense Department with an appeal for matching funds on the grounds that SR 80 is inadequate in event of national or natural disaster. If this appeal falls on receptive ears, it is proposed to go to the Legislature and secure special appropriation for \$10 to \$15 million to match Federal funds. All of this is predicted on a new location for the present US No. 441 from the Glades.

Mayor Bailey, after a two hour conference with Commissioner Weaver, reports to THE HERALD that he and the Commissioner are thinking alike and that the winning of Belle Glade's request for participation in the federal Urban Highway Program on SR No. 80 will not be interfered with. The Mayor believes that the four-laning of 80 from 715 to the blinker to Avenue E under the Urban Highway Program will not be interfered with by Weaver's proposal.

The Commissioners will present three alternate locations for the proposed US No. 441 — the present alignment, SR No. 80 and two others, according to our information from the Mayor.

The Commissioner reports that he will go to Washington on the 19th of April with a tentatively arranged conference on the 20th and 21st, with the National Bureau of Roads and Highways, with County Engineer Frost.

Mr. Weaver announces that he is making the trip with the blessing of Chairman Bowen of the State Road Department, and, we might add, with the blessing of lots of others.

Barbecue Monday For Insurance Commissioner

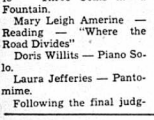

Glades friends of Insurance Commissioner and State Treasurer Williams will host a barbecue for the public at 12:30 Monday on the Belle Glade Marina grounds.

Commissioner Williams friends point out that the Southeastern Insurance Journal, a professional publication, nominates "Net Results" Williams as "Insurance Man of the Year" with laudatory relation of his accomplishments in his thirteen months occupancy of the position.

Mr. Williams served with Commissioners Knot and Larson for years and has been recognized by the National Association (NAIC) with membership on its Executive Committee.

The former Graceville, Florida boy, is credited in the insurance industry with Florida's Top Salesman to the insurance industry through securing establishment of Florida, as well as area and national meetings.

The public is invited to meet and eat with the Commissioner.

Educators Honor Roberts At Marina Sat. 4 to 6 p.m.

"Representative Roberts has been outstanding in his championship of education, at all levels — from the elementary grades to senior college sponsorship — and we are taking this opportunity to express our appreciation," says Herman Close Principal of the Belle Glade Junior School, in announcing a barbecue Saturday afternoon March 26th at the Belle Glade Marina from 4 to 6 p.m. for Palm Beach County teachers and administrators.

In order to be sure to prepare sufficient food, the Committee announces that tickets will be on sale until four PM Friday afternoon. Mr. Close and the Belle Glade Herald have tickets for the conclave as well as several personal friends of Mr. Roberts and the schools.

A price of \$10 each is placed on the tickets so that a fund will have been assembled towards Mr. Roberts' campaign expenses in this race for Commissioner, Florida Public Service Commission.

The hope of the group is that the recognition of "homoforks" in the education field will have its influence on teachers and school people throughout the State.

Mr. Roberts will be present at the "shindig."

Causey Visits Atlanta

Associate County Agent Causey returned Sunday from a one day meeting of the Southern Regional Division of the National Association of County Agents in Atlanta, Georgia, held on Saturday, March 19th. Mr. Causey is President of the Florida County Agents Association. Representatives of 15 states attended the session which discussed the activities of the national association with emphasis on planning.

Glades Youth Leads In "Affirmation Vietnam" Movement

On February 12, over 22,000 cheering people poured into the huge new stadium in Atlanta, Georgia, their patriotism undampened by a drenching rain, to show their support for the United States' commitment to Vietnam. The event was sponsored by "Affirmation: Vietnam," an organization founded by Belle Glade youth Wayne Wood and five other Emory University students.

"You are sending a message today to our troops in Vietnam," keynote speaker Dean Rusk told the rain-soaked audience, "but even more important is the message you are sending to Hanoi."

The giant assembly, which was called "without equal since World War Two" by the Associated Press, was the product of a "bull session" by the six Emory students only two months before. "We were sitting in a dormitory room," said Wood "discussing the fact that something should be done to show to the world that 'draft-card burners' and (Continued On Page 10)"

Our Teeners

From "Ella A Delapation of American Youth"

"Moral values are the basis of our society, and the responsibility of each citizen to live by these moral values is fundamental to the welfare and progress of our society. These moral values include honesty of word, deed and purpose; brotherly love that requires us to be fair with our fellow men and just in our relations with them; faithful performance of our labor in every honorable calling; and a recognition that each of us has the duty to contribute to the best of his ability to the advancement of the general welfare."

Recently the Chairman of the Board of the United States Steel Corporation pointed out that many people today believe that the world is bound to Hades in a hack, that nothing can be done to stop it, that individual man is no longer able to shape his own destiny and that the only recourse, according to some people, is to bow at the shrine of frustration and futility and await the inevitable.

Speaking frankly, we also believe that America is presently headed in the wrong direction—but, and we emphasize that but—We happen to believe that we still have time to change the course of our destiny. To do so, however, we must effect some drastic change—

changes in our behavior patterns, changes in our thought processes, changes in our moral values.

A columnist in a small newspaper recently said:

"The wonder of this generation is not that lawlessness is reaching such alarming dimensions, the real wonder is that the majority of our youngsters are responsible citizens."

Certainly, we adults make it difficult for them to judge between right and wrong."

We find parents unwilling to discipline their youngsters—a smack on the bottom they say produces a harmful effect on the brain—to which we say "Nonsense" and to which a majority of the youngsters themselves do agree.

There is one thing certain: the future of this country is in the hands of the Teenagers of today, and we do NOT BELIEVE that a sub-standard number of them are taking, or will take the road to the right in the cartoon above to "Dropout," "Beastnik" or "Who Needs a Haircut."

With regards to Glades Teenagers, our theory is that "It Takes all sorts to make up a community, and we have a share. Our obstreperous teenagers are not even near the average of American Communities."

Uncle Dan From Doolie Says:

DEAR MISTER EDITOR:

Zeke Grubb's preacher come by the country store Saturday night and set for a spell with the fellers. He reported they was a big shortage of labor in the preaching business, said it was getting harder to find a preacher nowadays than it was to find a carpenter or plumber.

Ed Doolittle was of the opinion this might be on account of most carpenters and plumbers was now operating under the Great Society plan, a 35-hour week, double pay for overtime and fringe benefits for themselves and family from the cradle to the grave.

The good Parson was agreed with Ed up to a certain point, admitted it was hard to find men to work in the Lord's vineyard at the Devil's pay. But he allowed as how a young man had to get acquainted with the Spirit to choose the preaching profession and in this generation too many of them was getting acquainted with other things, like demonstrating and telling the Government how to run the war in Viet Nam.

Clem Webster said he had saw in the papers where a preacher in France had come out with a dictionary on cuss words. This preacher, according to Clem, claimed he had studied human nature a long time and had de-

agined this theory. He reported he had knowed men that had let the little things in life pile up and get out of control and that let off steam with some fancy cussing. But this was bad, he said, and when a feller gits riled up he can snort in several languages and git the steam valve down without no cussing.

Personal, Mister Editor, I'd have to agree with Zeke's preacher. I ain't never been much of a feller to cuss, and I'm gitting too far along in years now to git upset enough over things, even the Congress, to cuss about it.

But the good Parson said he wasn't shocked none at this French preacher for advocating the cussing theory. He told the fellers preachers was human and had their weaknesses just like everybody else. For instant, he said, he had one preacher friend that would drive clear across the state to preach a sermon, but wouldn't walk across the street to hear one. He reported they was a old saying that no preacher was gitting along as well as he said he was, or as bad as the other preachers claimed he was. He said it wasn't a bad perfection and told the fellers with a smile if any of them felt "anointed" he would help 'em git located.

It was mighty nice, Mister Editor, to have the Parson drop

LEGISLATION SENT TO THE WHITE HOUSE

Since my last newsletter Congress has completed passage of several important bills and they have gone to the White House. Among these are the following relating to the Vietnam problem: (1) The conference report on the authorization for \$4.8 billion for procurement and military construction in support of our Vietnam effort; (2) The conference report on the Administration tax bill which re-

duced the amount of revenue requested by the Administration slightly to \$5.93 billion; and (3) the supplemental authorization for economic aid to Southeast Asia and Santo Domingo in the amount of \$415 million, most of which will go to South Vietnam. I supported all three of these measures.

No one thinks that the tax bill will cover the cost of the Vietnam operation, but there was near-unanimous agreement to its passage,

since it will help to avoid further inflation and will reduce the operating deficit. We will probably have to consider other tax increases later in this session.

The follow-up Supplemental Appropriations bill, which could not be considered until the supplemental authorizations for Military Construction and for Economic Aid had been passed, is now pending in the Senate. The House passed it Tuesday by a vote of 389 to 3. The amount of \$13.1 billion, and our Committee on Appropriations in the Senate marked it up Wednesday. It is now set for passage in the Senate next Monday.

When passed, this will complete the emergency money matters for Vietnam, though as stated above we all know that more measures later in the session. The huge cost of our Vietnam effort is beginning to be clear.

FEDERAL JUDGESHIP BILL

Congress has also sent to the White House the Federal Judgeships bill, which creates 45 new Federal Judges (10 Circuit Court—35 District Court). Our own fast-growing state has very great interest in this bill which provides for the Circuit Court of Appeals at New Orleans four new temporary Circuit Judges (of alternate days so as to allow the out-of-town witnesses to testify in both Houses during a single trip to Washington).

As Others See It

EAST POINT, GA., REPORTER: "It's a strange world. The U. S. Supreme Court has ruled that it is unlawful for the Communists to register as such, as heretofore required. . . Freedom is a great thing—that is what these Communists have vowed to destroy. Yet, we give them every aid and encouragement that is possible."

WEBSTER CITY, IOWA, FREEMAN JOURNAL:

"There is an old hillbilly saying that goes, 'Them who has gets'. . . This has been working out in the early stages of the so-called antipoverty program in which the top share of many fund allotments is gobbled up by the directors and top echelon of hired assistants before the funds ever do filter down to the poor persons who need it."

ARLINGTON, TEXAS, JOURNAL:

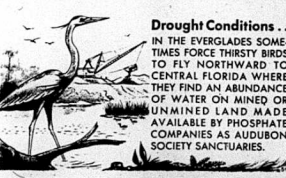

"There was a happening in Chester, Pa., recently which, in its own small way, is a kind of horror story which tells a lot about how well-intentioned Federal programs can turn into instruments of compulsion that touch individual freedom. Two grade students in Chester were suspended from school for three days. Their only crime was that they brought their lunch from home instead of paying the 35 cents for school-supplied meals. The school board president explained that the school lunch program is subsidized by the Federal government, and for a school to qualify, all the children must participate. The parents of the two boys had refused to go along."

Governor Bryant In Federal Job

Former Governor Farris Bryant who was today appointed by President Johnson to the position of Director of the Office of Emergency Planning, intends to maintain his close ties to the state of Florida.

Although Bryant stressed that he would discontinue active participation in his professional and business affiliations in order to eliminate any question of conflict of interest, he made it clear his residence would remain in Jacksonville. His youngest daughter is in school there and Bryant expects to commute between Jacksonville and Washington. "It is a considerable honor," Bryant said, "which

the President has paid me, and a great responsibility he has asked me to assume. I hope to be able to justify his confidence."

The Director of the Office of Emergency Planning is assigned the responsibility for coordinating and determining policy for all emergency preparedness activities at the Government. He sits as a member of the National Security Council and coordinates plans for the continuity of Federal, State and local government under emergency conditions. Among other specific responsibilities the director determines the needs for stockpiling strategic materials.

Jealousy— Neck Squeezing Fatal

James Eddie Dixon, 45, of 624 SW Avenue C Place grabbed his common law wife, Florence Lee around the neck with both hands and squeezed too hard and too long—Florence is dead. The woman's body was discovered by fellow roomers in the house, located at the address above, and when police investigated, there was no evidence or information of other than natural death.

However, when Dr. Dorset performed an autopsy, he reported that the woman had been choked to her death. James Eddie was interrogated by the police, as her known co-habitant of the room, and quite readily admitted the killing.

According to James Eddie, he returned home from a night's work and after opening the door by the use of a knife, he noticed two wide glasses or cups on a table near his sleeping quarters. He immediately inquired as to "who used that cup?" and in the argument following he grabbed her by the throat with both hands and

CARD OF THANKS

We wish to express our thanks to everyone for their kindness during the time Mary Frances Gilliam was a patient in Everglades Memorial Hospital and also in Jackson Memorial Hospital, Miami. Special thanks go to the hospital staffs and doctors, especially Dr. Gist. The cards, flowers, visits and prayers were deeply appreciated.

Shooting Probe Continues

"We are continuing our investigation of the shooting of Patrolman Edwards," Chief Senechal of South Bay says. "But have nothing to report right now."

Chief Senechal's work has turned up a number of interesting sidelights and possible motives for the shooting from ambush of Edwards while riding in a police patrol car on March 7th, however further investigation has not produced results hoped for, the finding of the person whose respect for law and order was so small that he attempted to assassinate the men who protect our lives and property.

Fire Control Answers Call

The Everglades Fire Control answered a call Wednesday that a House Trailer was on fire at the Palm Beach-Bound County line near Terratown on U. S. 27. Name of the owner and damage was not ascertained at the time the report of fire was called into the firemen.

Cane
Harvester

Harvester Built For Semi-Down Cane Building One For Full-Down Stalks

"Our new self-propelled sugar cane harvester will cut costs to the farmer from \$1.50 a ton to \$.25 a ton," announced Ronald G. Hawkins, Division Manager of J & L Engineering Company, South Bay. "It will pick up, cut, and pile for loading all semi-down cane sugar cane, and do it faster and cheaper than hand labor."

"Louisiana does not use off-shore labor for cutting cane; 80 percent of Louisiana's cane is cut by machine."

"We are building here in South Bay a machine that will harvest completely re-cumbar or DOWN cane. It is the Division of J & L which cuts the cane and loads it into a cart. From there it is hauled to the mill, where it is processed in the first step towards the market."

The 1961-1962 change-over to sugar cane farming brought many new businesses, new faces, and new pay checks to the Glades. The cane is a cut - load harvester Engineering Company, with home offices in Jesnerette, Louisiana, is one of the satellite businesses servicing the sugar cane industry, and has had much experience in the industry in Louisiana.

Sugar cane is not the only interest of the company according to Hawkins. "We have plans for and are building a new, experimental cotton harvester which

With a field speed of 4 MPH, and flotation same as 4-ton cane carts, and with two operators, this Glades-made harvester has a capacity of 40 tons of cane per hour, at an estimated expense of \$7,315, according to manufacturers.

may soon be ready for field trials, and we service all farm machinery on a round-the-clock basis."

The South Bay Division has a payroll of 15 men, plus office help. The number of men has at times been as high as 42, working on a 24 hour day to get work out that was needed by Glades farmers.

Hawkins is a graduate of Texas A & M, and worked for J & L in Louisiana before coming to the Glades. He is the only person in the Florida Division from Louisiana, all welders and other employees are people from the Glades, with the usual needs for schools, doctors, and professional services of all kinds, said Mr. Hawkins.

The harvester pictured has a sweeper chain in the left to lift semi-incumbent stalks from the adjoining row from the path of the machine. Two center V-shaped gathering arms convey stalks into the machine where it is cut, topped and piled into six-row windrows.

Probe Continues In Ambush Shooting

Another shooting from ambush gave residents of the Glades uneasy feeling last Tuesday when two employees of a construction company were shot while riding in a company pick-up truck on Duda Road. Neither were injured.

Driving the truck was Mr. I. R. Hutto, foreman of a contracting firm building a spur railroad for the Atlantic Coast Line Railroad. With Mr. Hutto was J. D. Tidwell, on the passenger side. Both men live at the Glades Motel in South Bay. Dep. Sheriff Larry Marsh investigated the shooting, and has not yet definitely determined what caliber weapon was used although the lead bullet which was recovered indicates it was a large caliber gun, either .38 or .45. Marsh stated that the path of the bullet indicated it was fired from a low position, probably from the canal alongside the road. Mr. Hutto stopped at once, but neither man could find any trace of the attacker. The attack occurred at about 6:45 in the morning, last Tuesday.

Probable reason for the attack advanced by the Sheriff's office is that several laborers had recently been discharged. No arrests have been made, but the matter is under intensive investigation.

Winn-Dixie Sales Up 7.22 Over '65

A record \$45,499,968 increase in sales was recorded by Winn-Dixie Stores, Inc. during the 38 weeks ended March 5 compared with the corresponding period last year.

The volume was \$875,863,067, a rise amounting to 87.12 percent over the \$30,383,099 registered in the like period a year ago.

The company, which operates 691 supermarkets in this area and throughout the South, reported a \$4,934,007 increase in sales during the four weeks ended March 5 compared with last year. They amounted to \$79,174,191 against \$73,190,184, an advance of 6.74 percent.

Smathers Opposes Removal Of Dominican Peace Force

Senator George A. Smathers, D-Fla., today urged foreign ministers of the Organization of American States to "resist pressures to remove the Dominican Peace Force from the Dominican Republic."

Smathers, who for more than a decade urged the creation of a permanent Inter-American peacekeeping force, said it would be an "act of folly" to disband the 8,000-member force now serving in the Dominican Republic.

"The peacekeeping force may be imperfect," Smathers said, "and while it has become the whipping boy for competing political elements in that volatile island, it nevertheless is the best available instrument for joint hemispheric action to preserve democratic institutions."

"The U. S. has no desire to take unilateral action in the Caribbean or elsewhere in the hemisphere," Smathers said. "So far as we are concerned we would much prefer that there be a permanent hemispheric fire-fighting brigade available."

"All friends of Latin America would like to see the Dominican Republic go forward with peaceful elections in June," Smathers continued.

"However, it would be a mistake to withdraw all troops at this juncture. Instead, I would ask OAS members to seriously consider providing

even more men to serve in the force, so that the Dominicans will know that the entire hemisphere is equally committed to peace and good will."

"It stands to reason that greater acceptance of the peace-keeping force concept by OAS members will, in the long-run, mean that individual nations will be able to devote more of their budgets to education and social welfare programs & less on military organizations."

"This is no time," Smathers concluded, "to abandon the peacekeeping force in its test."

Slimnastics Classes

Physical fitness and Slimnastics are the subjects of a course being organized at the Civic Center by Jerry Robinson, Assistant Playground Manager with Rita Cunningham as Instructor.

At the first meeting last Monday morning there were ten potential participants present.

The courses are open to all women and will be held two mornings per week on Mondays and Fridays, with registering Friday, March 25th 8:30 to 9:30 A.M.

Evening classes will be organized; there is no age limit, no weight restrictions. Remember registering this Friday morning 8:30 to 9:30.

County Demo Committee "Coming Alive" Says Dave

Palm Beach County Democratic Chairman, Joel T. Daves, announced today that a one-day Democratic Party seminar will be held Saturday, March 26, at the George Washington Hotel in West Palm Beach. This seminar follows a similar event held in Orlando in September and will be attended by 500 or 600 Democratic Party workers, including County Committee members and women, County Chairmen and State Committee members and women from all over Florida.

Opening remarks will be given in the Main Ballroom of the George Washington Hotel at 9:00 o'clock A. M. by Charles E. Bennett, U. S. Congressman from Jacksonville. Bennett has previously announced that he is a candidate for the United States Senate seat being vacated by Senator George Smathers in 1968. The luncheon speaker will be Tom Adams, Florida Secretary of State. Panel discussions and group meetings through out the day will be lead by

Dr. Ernest Bartley of the University of Florida, various members of the Florida Senate and House of Representatives, and Chairmen of Democratic Executive Committees from south Florida, as well as an assortment of Florida Cabinet Administrative Assistants and State Committee members and women.

Also expected to attend are Honorable William T. Mayo, Florida Public Service Commissioner and State Representative Emmett Roberts, candidate for the Public Service Commission.

This will be a one-day session commencing at 8:30 o'clock A. M. with registration in the lobby of the George Washington Hotel. Daves, who is also a State Representative from Palm Beach County, said that the Democratic Party organization was "coming alive" in many south and central Florida Counties where Republicans had been elected to office in recent years. "People are beginning to realize," Daves said, "that

Party organization and Party work is important, and that it lies at the very foundation of our Democratic processes."

Mrs. Strickland Hostess To Missionary Soc.

The U. Darden Missionary Society met at the home of Mrs. T. E. Strickland on Northeast Avenue "E" Tuesday morning.

Coffee and cakes were served by the hostess from a lace-covered, beautifully appointed table. During the meeting further plans were made to furnish an Easter outfit to the orphan adopted by the society at the Baptist Orphan Home in Lakeland. Also a luncheon was planned for the next social meeting in April at the home of Mrs. Howard Lamb, when the book, "Panama, the Land Between" will be reviewed.

"Leading Church Members to Participate in Missions" was the subject of the program ably presented by Mrs. Lester Clarke to the following members and guests present: Mrs. B. M. Eizenbrod, New Orleans,

Mrs. Nina Jensen, Mrs. W. T. Forsee, Mrs. C. T. Pennington, Miss Betty Pennington, Mrs. Ruth Stein, Mrs. Howard Lamb, Mrs. Lester Clarke, Mrs. Rose Armstrong and Mrs. Luther Jones.

Young Democrats Displaying Action

Allan Everard, President of the Palm Beach County Young Democratic Club announced that the Club's Executive Committee will act as hosts for the 1968 Convention of the State Young Democratic Clubs of Florida at the Palm Beach Towers, June 25th to 27th, 1968. President Everard appointed National Young Democratic Committee Chairman Al Zella as General Chairman of the convention. Chairman Zella said he expected about 350 Young Democrats from all over Florida to register for the three day convention.

Special invitations will be extended to prominent Florida Democrats to attend and arrangements are being completed to insure that the delegates have an opportunity to hear some of the

leaders of the Democratic Party from Washington, D. C.

The local Young Democrats expressed their support to County Democratic Committee Chairman Sylvan Burdick on the County Executive Committee's March 29 Democratic Political Seminar at the George Washington Hotel.

Any Palm Beach County Young Democrats who are interested in joining the club are urged to contact Treasurer Norman J. Kasper, Citizens Building, West Palm Beach, Florida. Other political activities in addition to the State Convention are being planned prior to the November election including forums, special downtown luncheon meetings and social functions.

Renewal Services Well Attended

The Community Methodist Spiritual Renewal Services conducted by Rev. F. L. Hartfield, evangelist, have had a wonderful response. The services will continue at 7:30 p. m. through Friday and Bible Study will also be held in the morning. Rev. Hartfield will continue to bring his message over WSWN through Friday.

Mrs. Poston Gives Guild Program

Mrs. Richard Poston presented the program for St. Elizabeth's Guild of St. John's Episcopal Church at the Wednesday morning meeting at the home of Mrs. A. B. DeGraw, Mrs. J. W. Altman was co-sponsor.

The program was taken from the books, "Babylon By Choice" by Martin E. Marty and "Requiem of Our Calling" by Howard Grimes. Mrs. Ed Davis gave the devotion.

Mrs. DeGraw asked for empty plastic prescription containers to be saved and brought to the church, to be used for our patients at the Mental Hospital. She also announced she would bring some magazines that were brought to the church, and deliver them to the prison farm or hospitals.

The group decided to give a cash donation, rather than send clothing to the Mission Guild is assigned to help each year.

Mrs. James Winchester and Mrs. Doug Matthews were named to be responsible for the transportation of the baby sitter for the church this month.

It was announced the Guild will serve coffee after church two Sundays a month, the E. Y. C. will serve the other two. The Women will rotate this job of serving on this committee.

Toys for the church preschoolers were discussed as the need for them was brought to the Guild's attention by Mrs. Charles Hines, Sunday School teacher.

The Guild's annual turkey dinner and bazaar were discussed at great length, but the president, Mrs. Winchester, asked the members to think about the discussion and table it until the next meeting.

Success Of Headstart Project Told To Catholic Societies

A program on the Headstart Project which enrolled 453 preschool children beginning last week at school centers in the Glades area during the summer of 1965 was presented by Mrs. Ted Irvin and Mrs. Carl Campbell to St. Phillips Altar and Holy Name Societies recently.

Mrs. Alfred Weber, program chairman, introduced Mrs. Irvin, co-ordinator of the project in this area, and Mrs. Campbell, one of the teachers.

Mrs. Irvin stated that the Headstart Project probably has been the most successful of all community action groups and the best criticized of the federal government's war on poverty. She described in detail the pre-school work done with five year old children in this area last summer, under twenty-eight professional teachers, twenty-eight paid aides, a case worker, pediatricians, nurses, cafeteria workers, volunteer aides, and the area supervisor.

Plans are now under way for the Headstart Project again this summer where a better and more extensive program is expected to be carried out because of the advanced planning and the experience already gained.

Rev. Ray Miller, pastor of the Alliance Church in Belle Glade, joins with his entire congregation in extending a hearty invitation to the community to attend these evangelistic services. Services will begin nightly at 7:30.

er fields around the world. The Alliance came into being over seventy-five years ago when an enthusiastic Presbyterian minister, Dr. A. B. Simpson, responded to the burden of lost souls around the globe, which God had placed as heavily upon his heart. Men and women from many Bible believing denominations rallied to Dr. Simpson's side with the concern of world evangelism. Today, as a result of Dr. Simpson's obedience, the Alliance has over eight hundred missionaries ministering on twenty four foreign fields.

Rev. Ray Miller, pastor of the Alliance Church in Belle Glade, joins with his entire congregation in extending a hearty invitation to the community to attend these evangelistic services. Services will begin nightly at 7:30.

Church Of God Will Feature Eppley Sisters

On Friday evening March 25th the Eppley Sisters of York, Penna., will present a special program of Gospel Music at the Belle Glade Church of God.

These fine Christian workers have ministered to more than 70 different denominations throughout the world. Recently returning from 5 months special service in Greece; 4 months in Italy, Switzerland and Germany, one month in Holland and 1 1/2 months in England.

The program will feature the vibrant Harp, chimes, two accordions and the little instruments used in Europe.

Pastor Madison W. Sindle extends an invitation to all to attend and worship in this time of song and testimony. Service begins at 7:30 P. M. The Church is located at the corner of S. E. Avenue E and 3rd Street.

ten well, follow directions, express themselves better through language, play and work together better, take more responsibility for their own behavior, are more self controlled, sing better, use crayons, scissors and pencils more skillfully and were more generally ready for first grade.

Community groups and volunteer aides who were of great help to last summer's program were praised. One group took responsibility for finding and enrolling Spanish speaking children and securing volunteer aides. Other groups and individuals supplied magazines, toys and other needed things for the classrooms. Community groups, through their interest and help can increase the effectiveness of the Headstart Program and make it a very worthwhile community effort.

Mrs. Campbell showed colored slides of the program and she and Mrs. Irvin commented on its many activities and facts. In conclusion, Mrs. Irvin stated that this program will probably continue and result eventually in full-time kindergartens in the public schools.

Do Good Works Lead To Life?

By Lewis Llewellyn

A young man asked Jesus, "Good Master, what good thing shall I do that I may have eternal life?" Like many today, he thought that eternal life could be assured if he did the proper kind of good deeds.

Good works are highly commended and strongly advocated in the Bible but nowhere is there a description of any good deed or combination of good deeds which lead to eternal life.

Writing to the Christians in Ephesus, the Apostle Paul said, "We are . . . created . . . unto good works, which God hath before ordained that we should walk in them."

NOT OF WORKS Yet the Bible also points out, "By grace are ye saved, through faith . . . Not of works, lest any man should boast."

Eternal life cannot be earned, but is a gift from God. This is made clear by the Scripture which says, "The wages of sin is death, but the gift of God is eternal life through Jesus Christ our Lord."

When the people to whom Peter preached on the day of Pentecost asked him and the other apostles, "What shall we do?" the reply

Community Methodist Church Lake Harbor Slates Revival

Revival Services at Community Methodist Church in Lake Harbor will be held the week of March 27 to April 1, with the Rev. Walter T. Cross preaching, Sunday night at 7:30 and week-nights at 8:00.

Rev. Cross is well known in the Glades area of Florida, having grown up at Canal Point, graduated from Pahokee High School, and was Pastor of Community Methodist Church, Lake Harbor, in 1944-1945. He has held pastorates in Miami, Palmetto, Tampa, Lake City, and is at present Pastor of First Methodist Church in Frostproof, Florida. He is also a member of the Florida Annual Conference Commission on Evangelism.

St. Phillips Erects New Stations

At the regular Lenten services on Mar. 20 at 8 p.m. Father Peter O'Donnell, pastor of St. Ann's Church in WP Beach, will deliver the sermon.

The Stations of the Cross will be said by Msgr. Bernard McGinnis, Dean of the East Coast Diocese and pastor of St. Julian's Church in West Palm Beach. Erection and benediction of the beautiful new stations will be celebrated by Msgr. J. M. Jaurist, pastor of St. Phillips.

All parishioners are cordially invited.

was, "Repent, and be baptized, everyone of you, in the name of Jesus Christ for the remission of sins."

ETERNAL LIFE A GIFT

The way into heaven cannot be bought with good deeds — no matter how extensive or long-continued. Eternal life is a gift from God — a gift which only God can give.

The Bible says that we qualify for this gift by exercising faith, not works. What you work for cannot be a gift.

The scripture tells us, "With the heart man believeth unto righteousness, and with the mouth confession is made unto salvation."

"Not by works of righteousness which we have done, but according to His mercy He saved us."

"A good name is rather to be chosen than great riches."

Proverbs 22:1

First Church Of Christ Scientist Church To Show Film March 27

A petition for growth in grace and spiritual perception will open the Lesson-Sermon on "Reality" at all Christian Science services this Sunday. The Golden Text is from Psalm: "Blessed art thou, O Lord: teach me thy statutes . . . Open thou mine eyes, that I may behold wondrous things out of thy law."

Included in the readings is this statement from the denomination's textbook: "The enslavement of man is not legitimate. It will cease when man enters into his heritage of freedom, his God-given dominion over the material senses" ("Science and Health with Key to the Scriptures" by Mary Baker Eddy).

Rev. Lawrence Muntz will bring T. L. Osborn's latest film to the Belle Glade Church of God on Sunday evening March 27, 1966. This dynamic hour long film of the Philippine Crusade will be shown at 7:30 p. m. Many often wonder how it is possible that many of these world wide Crusades will draw a congregation of sometimes 200,000 persons as in Argentina.

Come see for your self the result of a spirit filled ministry and that Jesus Christ is the same yesterday, today and forever. Witness for yourself the miracles of healing and the gifts of the spirit in operation. Seating is limited to 200 and there is no admission charge. Everyone is welcome.

We might imagine this is a squirrel assuming a prayerful pose while satisfying his appetite . . . like a man pretending to be religious in order to gain the respect of others.

We are not often fooled by falsity, nor do we let it blind us to truth. We know our religion is our richest treasure. But we rate it worthless unless sincere. Today millions are talking about the world's spiritual needs. Is talking enough?

Isn't faith more than a word . . . prayer more than a pose? Attend church every week with your entire family. Support the Church with willing sacrifice. Offer your time and talents to God in your congregation's busy life. And live each day the truths you cherish.

"Push-button irrigation does the job... ELECTRICALLY!"
says Luther Graham
La Belle, Florida

Mr. Graham irrigates a 120-acre citrus grove, pasture, and banana grove by pumping water out of well into ditches.

"We have three 10 HP electric pumps for irrigation purposes and are well-pleased with the push-button operation", says Mr. Graham, land clearing and grove development contractor of La Belle. "We haven't had one maintenance problem and the motors are very satisfactory as far as economy is concerned."

Rogers Urges Expansion U. S. Fishing Industry

Congressman Paul Rogers, a member of the House Merchant Marine and Fisheries Committee, today urged the expansion of the U. S. fishing industry.

Rogers said in a speech before the House, "The United States has now slipped to fifth place among fishing nations of the world. It is ridiculous that this nation should rank behind Peru, Japan, Red China, and Russia as a producer of seafoods. Even more absurd is the fact that nearly 62 percent of the seafood eaten by Americans is imported from foreign nations."

The Florida Congressman pointed out that each year Americans spend up to \$600 million for imported seafoods, and that the State Department has even approved expansion of Russia's seafoods now being sold in this country.

"In view of the increase in Cuba-based Russian fishing trawlers operating in the South Atlantic and Gulf areas near Florida, I just wonder whether these new Soviet seafoods sold in the U. S. will be taken from Florida, fishermen?" Rogers asked.

Congressman Rogers said that American fishermen now take only 5.1 percent of the total fish caught thru out the world. He noted that Russia's catch is almost double ours, and that the USSR is placing greater national priority on its fisheries, while U. S. fishing is declining.

The Florida Congressman called upon the U. S. Food

and Drug Administration to approve the production of fish protein concentrate, or fish flour, as a first step toward revitalization of the American fishing industry. Fish concentrate, which is produced by pulverizing the entire fish, sanitizing it, further reducing it to fine white powder, would then be used as an additive to human foods. It has taken suggested that the cereal & grain industries use the additive to fortify their products marketed in underdeveloped nations.

Rogers cited the fact that studies show that if only the unharvested fish caught from U. S. coastal waters were used for fish concentrate, sufficient high quality protein would be provided to balance the diets of up to one billion people for 300 days. The diet supplement could be accomplished at a cost of approximately 1/2¢ per person per day.

"And if the Food and Drug Administration approved fish concentrate the U. S. fishing industry could sell over five times more fish than it is selling today."

"Certainly a seafood producing state such as Florida would feel the immediate impact of this new market," Congressman Rogers stated.

Deaf Man Perfects Midget Transistor Hearing Aid
If you can hear people talk and can't make out the words clearly, then this will be your answer. An extremely small hearing aid, using a tiny energized unit, has been perfected by a man who himself is hard of hearing and has been for over 10 years. With his new aid, even whispers are crystal clear. If interested it is suggested you write HEARING, 32 E. 9th St., Erie, Pa. You will receive full information at no cost or obligation whatsoever.—Adv.

Who says a '66 Ford rides quieter than Jean Bauchet's \$12,000 Facel Vega?

Jean Bauchet!

"Such smoothness, such silence," says Jean Bauchet. "Your Ford is quieter, M'sieu."

Ford's quietness is the result of advanced engineering features like a revolutionary new frame that "tunes out" road vibrations... the strongest body ever on a Ford. But the quiet ride is just one of many reasons why you're ahead in a Ford all the way.

Only Ford in its class offers Stereo-Sonic Tape Player option that brings you over an hour of uninterrupted music of your choice, on each self-threading, snap-in tape cartridge. Magic Doorgate for wagons (standard equipment) that opens out like a door and down like a tailgate, depending on whether you are loading kids or cargo. Silent-Flap Ventilation (on 4-door hardtops) that brings in fresh air and gets rid of smoke and stale air with the windows closed. Even Ford's keys are special—they're double-edged so they fit in locks either side up. Visit your Ford Dealer and test-drive a '66 Ford. See how many ways Ford can put you ahead in '66.

Lake Okeechobee Waters Flooding Nat'l Park And Reservoir Areas

Army Engineers began last Thursday discharging water from Florida's Lake Okeechobee into the Caloosahatchee River in an effort to reduce the level of the giant lake to a safe point prior to the start of the hurricane season.

With Florida now experiencing one of its wettest seasons in many years, following on the heels of a four-year drought, the 730-square-mile lake's water level is rising faster than water can be moved out and into the Central and Southern Florida Flood Control Project's big conservation areas.

Two of the three reservoirs which store excess

water from Lake Okeechobee, are brimming full. The third conservation area is less than 2 inches from its flood regulation stage.

One thousand cubic feet of water per second (some 648,000 gallons per day) are flowing into Everglades National Park under a new state, Army Engineers and Park Service agreement.

The Central and Southern Florida Flood Control District is pumping additional water from the lake to the conservation areas of the project at maximum practicable rates. Under the new agreement the federal government is paying the Flood Control District to pump up to 1,000 cubic feet of water

per second from Lake Okeechobee into the conservation area for use by the park. This several times greater than the minimum amount of water which the Park Service has said is needed to augment rainfall over the park for this season of the year.

Despite the pumping and removal of all water practicable from Lake Okeechobee for storage in the three conservation areas and for use by Everglades Park, Army Engineers said the heavy inflow of water into the lake makes it necessary to discharge floodwaters for further regulation of the lake.

Some 7,000 cubic feet of water per second are gushing into Lake Okeechobee from the Kissimmee River, but the pumping stations south of the lake are able to discharge only 2,500 cubic feet per second.

Therefore the lake continues to rise, whereas it is necessary to reduce the level at this time of year to prevent a recurrence of the disastrous hurricane damage which occurred in 1928 and 1929 — claiming the lives of more than 2500 people. Property damage was extensive in those storms. Lake Okeechobee lies in the path of frequent hurricanes.

Although the levees permit greater safe storage of more water, the dikes still can be overtopped by windtides.

Army Engineers said 4,000 cubic feet of water per second are now being released into the Caloosahatchee River. This is about half the amount which could be released in case of a greater emergency.

Continuation of the release of Lake Okeechobee water to the tidewater is expected to be necessary for at least a month, even without additional rainfall.

In order to store the maximum amount of water possible in Lake Okeechobee to compensate for Florida's erratic rainfall, the lake has been ringed with levees.

During winter months the lake is allowed to rise to 15.5 feet above mean sea level. Starting in mid-February, the lake level is gradually lowered so as to

be no higher than 13.5 feet MSL by June 1 when hurricane season starts. The lake covers 730 square miles and reducing the level of the lake is a slow and tedious job.

Therefore, lowering of the lake must begin several months in advance of the actual start of the hurricane season.

The Central and Southern Florida Flood Control District's canals, pumping plants and conservation areas protect an 18-county section of Florida which is vitally important for its agriculture, tourist attractions and park facilities.

The project's works, which are still only 50 per cent completed, also provide water for the populous east coast including Greater Miami and provide auxiliary flows of water into Everglades National Park. The conservation areas also maintain extensive wildlife population, fishing and other water-oriented recreation activities in this part of the United States.

On occasions, such as now, the Corps of Engineers releases water to the sea as a safety precaution for the people living in the shadows of Lake Okeechobee's giant levees.

Postal Rates To Increase In Five Services

Increases in money orders, insurance, registry, certified and C. O. D. rates will become effective March 26, 1966 Postmaster Ross A. Nash said today.

The cost of operating these five special services now exceeds revenues by \$60 million annually. The fee increases will narrow the cost-revenue gap by \$36 million, based on business handled in Fiscal Year 1965.

Fees for money orders, registry and C. O. D. were last changed in 1961; insurance and certified in 1957.

The fee changes, announced in the January 11th Federal Register and confirmed in the register on February 25th, are put into effect under the existing administrative authority of the Postmaster General.

The increases include:

MONEY ORDER FEES: Domestic and international money order fees will be increased by 5 cents.

INSURANCE FEES: The minimum fee bracket will be increased from \$10 to \$15 and the minimum fee will be 20 cents instead of 10 cents.

The revised insurance fees will be as follows:

\$0.01 - \$15	20 cents
\$5.01 - \$50	30 cents
\$50.01 - \$100	40 cents
\$100.01 - \$150	50 cents
\$150.01 - \$200	60 cents

REGISTRY FEES: The present 60 cents and 75 cents fee will be combined into a single fee at 75 cents for values up to \$100. Registry fees for articles valued in excess of \$100 will remain unchanged.

C. O. D. FEES: The present 40 cents and 50 cents fee brackets will be combined into one fee bracket at 60 cents for amounts up to \$10. There will be no change in the fees covering items valued above \$10.

CERTIFIED MAIL: The fee will be increased 10 cents from the present 20 cents per item to 30 cents.

Losses incurred in the operation of special services are paid from funds drawn from the Federal Treasury. The fee increases will shift a substantial portion of the special service cost borne by the public to the users of these services.

At Gove
P. T. A.

City Manager Tevis Huguley (seated at left) with Richard P. Murphy, P. B. County Sanitarian (center) and Roscoe Legg, resident sanitarian for this area.

Gove PTA Program Water And Sanitation Plans Reflect Healthy Community

City Manager Tevis Huguley was the first of a two man team to speak last night at Gove PTA on the subject of water supply in our community as a part of the program "How Healthy is Our Community?" Mr. Huguley brought many facts which the audience was unaware of, and presented them in an interesting manner. He announced as of April first the new water supply would come from Winnie's Cove rather than rim canal and that plans are now underway by Russell and Asso for a new water plant for our community.

Mr. Richard P. Murphy, Palm Beach County Sanitarian, employed by the State of Florida, gave the various duties and coverage of his department here in the Glades area. He was accompanied by Mr. Roscoe H. Legg who will be the resident, sanitarian for this area. Mr. Legg has been with the State of Mississippi Public Health Department for sixteen years, and the parents and teachers were very pleased to know that our State Department has seen the need of placing one permanently in this area.

The group participated in the question and answer period following the two speakers.

President W. L. Cunningham, Jr., called upon City Manager Tevis Huguley to lead the group in the pledge to the Flag for the opening of the business session.

Rev. J. Paul Vondracek, minister of the Everglades Presbyterian Church, presented the devotional on the subject "Love" based on the 13th Chapter of First Corinthians.

BUSINESS SESSION

The Nominating Chairman Mr. Francis Cross, Jr., presented the slate of officers for the coming year. They are: President, Mr. W. L. Cunningham, Jr.; Vice-President, Mr. Joe Clayton; Treasurer, Mrs. Douglas H. Thompson, Jr.; Recording Secretary, Mrs. Leon F. Webster; Corresponding Secretary, Mrs. Clarence Pate; Historian, Mrs. R. H. Cooper.

The group accepted the slate without opposition.

Mrs. Roger Cunningham, Room Mother Chairman, gave a report on the air conditioning project which was received with much interest. She also had an display a chart which listed

by rooms the amounts on hand for this project. Since the sixth grade rooms were the low men on the totem pole, she mentioned how it had become a custom for all graduating classes to leave something in the school from which they graduated, rather than the attitude taken by some of the parents in these rooms — that their children would be leaving this school for Jr. High next year, and therefore, the child would benefit little, if at all, from this expending or project. This thought presented by Mrs. Cunningham made a splendid tie-up with the one presented by the Devotional speaker when he ended his talk with President Kennedy's famous quote "Think not what your country can do for you, but rather what you can do for your country."

A fourth grade room, with Teacher Mrs. Denlinger, became the winner of the room Award once again when she had 42-percent of her parents present.

Items were on display in the cafeteria relative to the coming April Bazaar. A bake sale was also conducted at the end of the meeting.

Refreshments of doughnuts and coffee were served from the refreshment table which was covered with a hand-embroidered cloth by hostesses Mrs. James Herring, Mrs. J. R. Brown, and Mrs. Milton Wilson.

OVEN

Every Caloric gas range
features a Keep-Warm oven
system, which holds tem-
peratures as low as 140
degrees, keeps food at per-
fect serving temperature
without overcooking.

Defrosts frozen foods quick-
ly, heats rolls, pastry and
leftovers, warms plates and
keeps cooked meals and top-
burner-prepared foods din-
ner-ready until you are.

FIRST FROM

Astronauts love Bulova...

It's a big help
during countdown!

5...4...3...2...1 Blast off! And, right on time too.
He knows he'll be back on earth at a precise time —
thanks to his Bulova Watch.
But, it's not there's one thing he doesn't know. And, that's
that it takes nine months to produce a Bulova Watch. At
Bulova nobody thinks about speed — only about excel-
lence. And excellence takes time. Time to make, in-
spect, check and re-check the more than 100 tiny parts
that go into a Bulova Watch. (Some are so tiny a baby's
breath would blow them away).
Looks like the astronauts and Bulova have a lot in com-
mon. Guess it must take that long to check out the
master before blast off.
Come in and let our Watch Experts show you our exten-
sive Bulova Collection of fine watches.

How to cover
the subject of weeds, disease, and nematodes
in one application.

Apply a preplant application of new triple-action TRIZONE® soil fungistat to your broccoli, cauliflower, eggplant, pepper, tomato, muskmelon and strawberry fields. Then cover what you've treated with a plastic film and you have real weed, nematode and disease control for the start of the growing year.

With one application. One product. With no harmful soil effects. Sound incredible? Try it. Any Dow-trained custom applicator will be happy to cover the subject of Trizone® with you in detail. The Dow Chemical Company, Agricultural & Industrial Bio-products Sales, Midland, Michigan.

Keese, Rockwell, Wolf, Delegates At Science Convention

Ellen Keese, Linda Rockwell, and Glenn Wolf represented the science club as voting delegates at the State Science Convention on March 11 and 12. Leaving Friday, Mr. Alderman accompanied the group as sponsor, and Mrs. Corbin, Randy Pears, Wilma Kirch

man, Bryant Price, Susie Sindel, Linda Steele, and Sherry McGee joined them later in the evening. The convention was held at Florida Presbyterian College in St. Petersburg with about 900 participants. The voting delegates were elected by their club to vote for the new officers of the Florida Junior Academy, a science organization, of which they are members.

During the two day session, the group listened to speakers at Florida Presbyterian College, and attended a banquet and dance at the Outrigger Inn.

"Club Of The Year" Plans Concluded

During the past meetings the Student Council has made several decisions and plans. The group has concluded the plans for the "club of the year" award. The winning club will be chosen and announced at the awards assembly, which will be held later this year. The Hootenanny was canceled because of another event on the same date. It was decided that the "club of the year" award will be an annual event for the student council. Typing paper has been ordered and can be purchased at the school store. Other projects and assemblies are being discussed to fulfill the year.

FFA Bar-B-Que

F.F.A. held their annual Bar-B-Que March 19, in the school cafeteria. This is an annual profit making activity. The money received helps in the organization projects through the year. Members helping at the supper were Ronald Shirley, Duane Stokes, Don Campbell, Dennis Partin, Dave Williams, Mike Wilson, Steve Cooke, Jerry Barbree and Steve Butler. All members contributed there help by selling tickets.

Who Is It?

This brown eyed and blond haired male is a member of the senior class. He stands a little over five feet tall, is a member of the tennis team and also the saints. When asked who it was, here were a few of the answers received. Jose Fernandez - Could it be Mike Foster? Laurie Jeffries - It's Gene Hollingsworth. Ken Brane - Wolley Seap. Jimmy Prevatt - Duh! I don't know. Riley Foster - It's got to be Harry Chaney. Mike Wilson - Was it taken at the park? Eddie Jimmerson. Cary Blanco - I don't know. Wait a minute, it says Gene Hollingsworth on the back. In case you haven't already guessed, the boy in the picture is Gene Hollingsworth, P. S. He doesn't have blond hair anymore. Ha! Ha!

Art Club Visits Gallery: Guests Of Lions Club

The Main Social event of the year for the Art Club took place last Tuesday when the second and third year senior Art Club members accompanied Mrs. Earwood to the Norton Art Gallery in West Palm Beach. They left at 2:30 to tour the Gallery and the Junior Museum with all its new exhibits and additions.

The students who went are Allison Cann, Marietta Lockwood, Ann Priest, Susan Kopp, Layne Shunkett, Eddie Olson, Peggy Smith, Diane Sheehan, Joan Taylor, Bobby Smith, and Wayne Williams. Eddie Jimmerson, Wayne Williams, Clotilde Equizabal, Amanda Bailey, and Bruce Campin. After seeing exhibits they stopped at the Burger King for some refreshments before starting home.

Wednesday, March 5, several Art students were the guests the Lions Club. They presented an art program. Wayne Williams gave a talk on the importance of art in school. For the rest of the month the Art Club will be fairly inactive due to the recent hospitalization of Mrs. Earwood's husband. The RAMPAGE extends to him wishes for a speedy recovery.

Mr. Morris Serves On School Survey Team

Mr. Morris was away from his desk on a school survey in Hillsboro County the week of March 7 thru March 11. Our principal was a member of the 34 man team for the Hillsboro County School Plant Survey. Duties of the team were to evaluate the school's physical facilities. They must suggest improvements which could be made. Morris participated in a school plant survey in Polk County. He plans to visit Collier County schools later this month.

Rams Rate Third

The Belle Glade Invitational track and field meet hosted four district schools last Thursday night. The schools were Boca Raton, Clewiston, Martin County and Pahokee.

Boca "Bobcats" anchored victory with 85 1/2 points while Martin County squad racked up 70 points for position of runner-up. Host

Belle Glade was third with 62 points, followed by Clewiston with 37 and Pahokee with 18 1/2.

George McDonald, defending Suncoast Conference Champion in the 440, shattered the school record with a loss of 48-1 in the mile relay.

440 Yard Dash - First, Ronnie Ratliff; Second, Y. R.; Third, Vic Riedel; Fourth, Mike Wilson; Fifth, Bryant Davis. Mile Run - First, Jackie Poole; Second, Tommy Williamson.

Shot - First, George McDonald; Fourth, Dennis Stokes; Fifth, Eddie Haines. Discus - Second, Eddie Haines.

Broad Jump - Fifth, George McDonald. Sprint Medley Relay - Third, Belle Glade. Mile Relay - First (Wood Pool, Ratliff, McDonald)

To achieve an increase in knowledge without a corresponding increase in wonder it to let the mind become rotten before it becomes ripe.

All were greatly impressed by the display of basketball ability show by the competing teams. Winning teams in their divisions were Pensacola, Dunedin, McCleny and Poplar Springs.

The four stayed at Bambi Motel Friday night and returned immediately after.

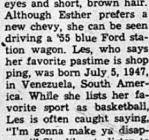

Rams Beat Seahawks

Coach Rodney Webb's Golden Rams won their first baseball game of the '66 season last Friday over the Seacrest Seahawks. The final score was 4-2.

The Rams' first run came in the second inning with senior Gary Walker crossing the plate. The Ram's big inning was the third with three runs crossing.

Senior pitcher, Tony Latour held the Seahawks to two hits. He went the complete seven innings. The Rams had five hits off of er McDonald and Bill Murray.

This was a non-conference game and leaves the Rams 1-1 for the season.

Students Of The Week

Ether Alice Rodgers and Ronald Shirley, two active seniors, have been selected as students of the week. Ether, commonly known as "Liz", is 5' 8" with blue eyes and short, brown hair. Although Ether prefers a new ether, she can be seen driving a '65 blue Ford station wagon. Liz, who says her favorite pastime is shopping, was born July 4, 1947, in Venezuela, South America. While she lists her favorite sport as basketball, Liz is often carrying out "I'm gonna make ya disappear!" She likes to listen to

the song, "Summer Days" and finds D. C. T. to be her favorite subject in school. Ether has one younger brother, David, an older sister, Carol, who is married and an older brother, Lee, who is a sophomore in college. Being an active member of D. C. T., Ether works as a receptionist for Dr. D. A. Flieha. After working at a job this summer, Ether plans to attend Massey Business College in Jacksonville this fall.

Ronald, known to his many friends as Ron, lists his favorite pastime as fishing and hunting. Born on November 5, 1947, in Pahokee, Ron is 5' 8" and has hazel eyes and brown hair. Although Ron now drives a '60 Ford, he hopes that someday soon he will be sporting around in a new Corvette. Having played on the varsity squad this year, Ron considers football as the sport he likes best. Having an avid interest in agriculture, Ron has been an active participant of Future Farmers of America during his preceding high school years, and now serves as its president. After completing this June, he plans to either join the Air Force, or continue his education in a junior college.

440, but starred in Belle Glade's winning mile relay team.

In spite of the fact that they were second runner-up, the Rams placed in the following events: 100 Yard Dash - Fourth, Tommy Woods; Fifth, Ronnie Ratliff.

440 Yard Dash - First, Ronnie Ratliff; Second, Y. R.; Third, Vic Riedel; Fourth, Mike Wilson; Fifth, Bryant Davis. Mile Run - First, Jackie Poole; Second, Tommy Williamson.

Shot - First, George McDonald; Fourth, Dennis Stokes; Fifth, Eddie Haines. Discus - Second, Eddie Haines.

Broad Jump - Fifth, George McDonald. Sprint Medley Relay - Third, Belle Glade. Mile Relay - First (Wood Pool, Ratliff, McDonald)

Rams Tie State Champs

The Rams tied Boca Raton, defending state class B champs 5-5 in nine innings last Tuesday. The game was called because of darkness.

Jorge Rodriguez starting pitcher for the Rams, gave up 3 runs and 5 hits in the 2 1/3 innings before being

relieved by the Ram's senior ace, Riley Foster, who held the Bobcats to a blood

The Rams big inning came in the third when Rodriguez batted a bases loaded triple to left-center field. He later scored on a wild pitch.

The Rams has finally come alive for the Rams. They got two Boca Raton pitchers for ten hits.

Belle Glade Group Attending Progressive Baptist Convention

A large group of prominent Baptists of Belle Glade are filling important positions at the 32nd Annual Session of the Progressive Baptist State Convention of Florida, being held in Jacksonville, March 22 through March 27, at the Mt. Ararat Baptist Church.

Among those attending are the Rev. J. B. Adams, pastor of St. John First Baptist Church, who serves as chairman of the Education Board; Rev. O. D. Williams, pastor of New Bethel Baptist Church and the corresponding secretary of the

parish body; Mrs. Amelia Houston, 2nd vice-president of the Senior Woman's convention.

Others attending are Mrs. Ossie Scruggs, Mrs. R. Miller, Mrs. Annie Everett, Mrs. E. S. Singleton from Belle Glade and others in nearby towns, Rev. E. Coffey, Rev. and Mrs. L. H. King of Oklawaha, Rev. A. Drayton of Lake Harbor, Rev. J. N. Dean and many others.

The convention is one of the leading organizations of its kind and is headed by the Rev. Dr. J. S. Sams of Jacksonville, who is also vice-president of the National Baptist Convention of America.

The state body supports several schools and makes generous financial contributions to Missions and Education.

Other Auxiliaries attending the convention are the Junior Women; the Ushers Union; the Layman Brotherhood; the Youth Convention and the Children's Convention.

The unified theme for the session is "Charged with Fulfilling the task of the Great Commission."

The five day meeting will close Sunday afternoon with the "Mission Hour Service."

From Harry Kennedy, Orlando, Florida: "I am originally from Elmira, New York and, in 1897, when I was about six years old, my father took me on a visit to Morris, Pennsylvania, where my uncle Ed Kennedy owned and operated the Black Hotel."

Lumbering was the main business and I remember how the bar room floor was full of small holes from the spikes in the lumberjack's shoes.

On pay nights, my uncle had his hands full keeping down the brawls. When things got out of hand, he used a piece of rubber hose. He said none never held a grudge, were always ready for another fight, and there were no policemen to keep order.

My uncle had some live turkeys, which he kept upstairs in a barn directly across the road from the hotel. A man came in and told my uncle that one of his turkeys had escaped and was sitting on a pile of logs near the barn. Uncle Ed went into the hotel, brought out his rifle and shot the turkey from the hotel porch.

No one seemed to think there was anything unusual about this kind of activity for, such was small town life in those days.

Kill this pellitory weed in sugar cane. Use Atrazine. Here's how:

When you see pellitory weed starting to grow, apply Atrazine 80W herbicide, plus a little surfactant. You'll clean out infestations of this winter annual fast and effectively... without hurting cane.

Atrazine is safe to sugar cane. It will not injure your crop when you apply it as directed on the label. And since it's non-volatile, there's no danger of drift to adjacent, sensitive crops.

Even though Atrazine has proved to control pellitory at any stage of growth, early treatment assures best results. With pellitory under control early, you grow more sugar cane per acre.

That's because Atrazine prevents

pellitory from interfering with sugar cane tillering. Also, Atrazine helps make soil moisture and nutrients available for your cane, and not for pellitory weed.

So plan now to grow the maximum tonnage of sugar cane from each acre you plant this season. Just use Atrazine to control pellitory weed this winter.

FHA HAS VISITOR
On Friday, March 11, 1966 Mrs. W. O. Norville spoke to the Future Homemakers of America on "Your Neighbors Near and Far." Mrs. Norville who has traveled extensively also presented a program on "Children & Families Around the World." She showed snapshots on the foreign countries that she had visited and demonstrated different kind of dances. The most fascinating dance to the group was the "Hawaiian Hula."

Some of the many places that Mrs. Norville has visited are France, Paris, Europe, Rome, China, Japan, Hawaii, Bahamas Islands, the Virgin Islands, where she was born, and Journalism.

The objective of this meeting was to consider projects for family, community, and world improvements.

After the discussion was over, questions were directed to Mrs. Norville on the many trips that she had taken.

The meeting was enjoyed by everyone.

ART CLASSES:
Students of the Commercial Art classes have done some abstracts recently that left quite a few of us puzzled and dazed. Many questions have been referred to Mr. Leroy Williams and Mr. Emmanuel Garrett concerning the abstracts.

During the past couple of weeks, students enrolled in this class have completed abstracts of still life, flowers, and birds through the media of knitting yarn on burlap. The primary objective was to learn how to compose and construct a design.

During the next few weeks the students will be working on sculptural projects using vermiculite and cement.

STUDENT COUNCIL:
The regular Student Council meeting was held Tuesday morning in the cafeteria with the president, Barbara Finney presiding.

The president began the business with a discussion on organizing a clean-up committee. The committee will be responsible for spear-heading a clean-up drive by presenting an assembly on "Do's and Don'ts on dressing, classroom, corridor and cafeteria conduct. The clean-up committee will also be responsible for setting a rating standard, keeping a chart of classroom ratings, and posting posters. This committee will be functioning within two weeks.

The president reminded council members of the activities that the Student Council will sponsor before school closes. They are:

- (1) Student Election (Apr. 26).
- (2) Student Assistant Day (May 10).
- (3) Mother's Day Concert (4) Faculty Luncheon.

On Monday, March 4, 1966, Willie David Wisper, a senior at Lake Shore High School attended Lincoln Elementary School in Riviera Beach, Florida for the purpose of participating in the Omega Psi Phi Fraternity, Inc.

For the past four years, Maggie's Column has been

playing a snare drum with the Lake Shore High School Marching Band. During this time he has been awarded several superior ratings for renditions of percussion solos.

During the Talent Hunt, Wisper played as his solo, "Connecticut Halfpence" and received a certificate of Superiority for his tremendous performance.

Dea Maggie,
There's a certain girl in my homeroom that wants everything to go her way. If it doesn't, she becomes frustrated. I want to help her. Please tell me how I can be of help to her.

Dear Helpful,
There is only one thing that you could possibly do. Go to this young lady and explain to her privately the way you and most of your classmates feel about her immature behavior. I'm sure that she will be more than happy to try to change her ways.

Maggie,
My problem is studying at home. Please give me some advice.

Can't Study.
As I have previously stated, the first thing that you should do is to set up a study schedule. Then follow these tips:

Do not turn the radio or television on while you are studying.
Do all of your chores before you begin to study, so that you won't have to be called from your studies.
But most of all, never stop until you have completed all of your homework.

Maggie,
the students, a committee was appointed to suggest activities that the council should sponsor in such a short length of time that would entertain students. The president appointed a committee to work with the executive committee on the activities. The president then appointed the following committees:

- (1) Program Committee.
- (2) Student Election Committee.
- (3) Student Assistant Committee.

Do you think that perhaps they were discussing

us? Looks as though they might have been looking at some of our work. Mrs. Veronica Davis seemingly thinks whatever Mr. Joseph Perry is saying is awfully funny.

"The Tattler's Column"

Well, here I am again with some exciting news that will turn everyone's ears.

Esther M., what happened to you and a certain senior? Did you have a fight?

Jessie M., I understand that you've got a crush on a certain young man. Is it true?

Christopher P., will you ever settle down to one girl friend? You know you can't make it by yourself.

Earnestine B., I understand that you've finally got yourself a boyfriend. I hope you and Curtis T. keep up the good work.

Rita B., what happened to you and John S.T. Did he wander off too far to turn around?

Richard T., I understand that you're trying to make it with Sandra K.H. I hope you succeed.

Johnny B., who will be the next lucky young lady? Charles H., who is it going to be, Jackie H., Vincy C. or Deloris S.T. You must make up your mind because three is a crowd.

Enora P., who is the lucky young man since you and Manford S. broke up? Edward D., I understand that you're trying to take Zedie M. W. from Robert L. W. You naughty boy.

Gloria D., what has been happening to you? Do you have boys on your mind? Sharon E., will cupid ever strike you again?

Until the next time, keep your business to yourself; because someone might kick in the newspaper.

Highlights Of The Season
The Lake Shore High basketball team has had a most commendable season, receiving high recognition and honors in the Southeast Atlantic Basketball Tournament.

The Bobcats had a rough season from the beginning, winning only 9 games and losing 15, but they showed their ability and fine sportsmanship during the basketball tournament.

The Bobcats were runners-up in the first semi-final tournament, and champs in the District Regional. The Bobcats then traveled to Fort Pierce, Florida for the State Tournament. The Bobcats were knocked out by Murray High of St. Augustine, Florida.

Special recognition was given to the following boys for their outstanding performance in the tournament:

A Freshman's Day

1st Hour Math: Odetzer Hara is all smiles, because he has just solved a problem that no one else in the class could solve. Keep on smiling boy, and keep on solving problems.

1st Hour English: Everyone is ready to perform the lesson for today which is choral reading, especially Mary Alice Brown, who leads the class in a poem entitled "The Congo."

2nd Hour Art: Curtis Freeman divinely sketching drawings from a Post Magazine while Eugene Ford works hard at his carving of George Washington.

2nd Hour Chorus: Well, if it isn't Jeannette Howard, and Dianne Lovett singing a warm tune in their trembling soprano voices.

3rd Hour Typing: Deborah Byrd and Mary Dixon are typing a quick business letter while Mary Dixon tries to figure out what she is going to type next.

4th Hour Civics: Robert Florence, Idell Moughlin and Barbara Haulst give a very interesting conversation about conduct and school discipline.

4th Hour Homemaking: Queen of the kitchen Dorothy McClood prepares her delicious cupcake.

Lunch time: That's right it's lunch time and everyone is waiting to be served. At last O'neal Jenkins gets his lunch; what! don't tell me that he has finished already, boy what an eater!

5th Hour Physical Ed: Ruth Berry bats the softball across the field while Jeannette Sears waits impatiently to pitch the ball.

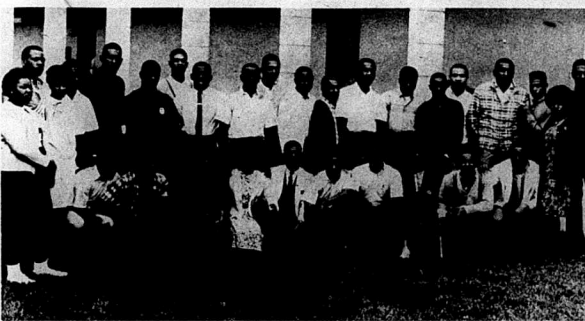

6th Hour Physical Ed: Linda Cameron makes a home run, while Sharon Butts holds the position of 3rd baseman.

Homeroom: Now the first bell is ringing for students to report to their homerooms. Another day has been completed for the freshman class. We shall remember these "good old days" as we progress and meet the higher goals of achievement and success.

Our responsibility as a freshman is to show others that we can be leaders. We have earned a name for ourselves so let's uphold the obligations and responsibilities that are put before us.

Cast Of "Inherit The Wind" - To Be Presented March 31, 1966

Shown in the picture are the members of the cast of "Inherit The Wind." Members of the senior class are working diligently day and night to make this performance next Thursday night, March 31, 1966 one of the best ever presented at Lake Shore.

Each reader is invited to come and witness Joseph Johnson as Drummond and Curtis Borton as Matthew H. Brady through out in a prejudiced courtroom what should and should not be taught in the classroom.

Students Of The Week

DEE DEE MIKOVSKY
GARY WALKER

Georgia Jean, better known as "Dee Dee" is a 5' 6". She has brown hair, green eyes and a constant grin on her face. Having been born in Trenton, New Jersey on March 17, Dee Dee loves the North and hopes to live there someday. Her part in the Senior play "Boys and Girls Together" as Letha keeps her pretty busy. Asked about her favorite pastime she replied "right now it's play practice." Dee Dee's preference of car is "anything on four wheels." Her favorite subject is Home Ec., and she also helps Mrs. Littlefield fourth period.

Being a former cheerleader, football is her favorite sport and her pet peeve is "having to wait on somebody when I'm in a hurry." Dee Dee is one of those happy people that likes sad songs and songs that have a meaning. Her favorite is "California Dreamer."

After graduation Dee Dee hopes to attend a Fashion Merchandising and Modeling school in Ft. Lauderdale. Gary Walker, sometimes called "Otis," is well-known around school and considered a friend by all who know him well. He was born on

February 19, Gary, who is 5' 7", has brown hair and brown eyes, plays the position of back on the football team. Also active in baseball and track, Gary's favorite pastimes are football and girls. Otis is President of the Student Council, member of Interest and portrays "Count Dracula" in the Senior play. Gary is often seen sporting around Belle Glade in his green '87 Chevy with the radio tuned in to his favorite record, "Hey, Baby." His pet peeve is (would you believe) Senior girls.

After graduation Gary hopes to play football and be a good student in college.

Future Farmers An Action Group

The Future Farmers is a group of boys, who are bound together because of similar interests and desires in the broad field of agriculture.

The local chapter has 76 members who have taken advantage of the farming facilities in the Glades area. Officers are Ronald Shirley, president; Duane Stokes vice-president; Mike Wilson, secretary; Ron Campbell, treasurer; Charles Nickles, reporter; Wayne Partain, sentinel; and Dave Williams, chaplain. Their chapter is sponsored by Mr. Lovell and Mr. Goza who teach in the agriculture department.

Active in the community and school projects, the FFA was a vital part in the founding of our school park.

The boys are members of the sugar co-op and have five acres of cane this season.

During FFA the club had a display in the showcase at the main corridor. The aim of FFA is to develop agricultural leadership, cooperation, and citizenship.

The chapter will sponsor a barbecue on March 19 in the High School Cafeteria. The money raised will be used for activities in the remaining school year and next year.

Over the past years, the organization has published a calendar. The proceeds from this project are spent

for the father-son banquet in May. Presentation of awards is made to top off the year.

The National Emblem of FFA is made up of five symbols: the ear of corn, the plow, and the rising sun, within the cross section of an ear of corn, which is surmounted by the American flag.

The colors of the organization are national blue and corn gold. The motto is as follows: LEARNING TO DO, DOING TO LEARN, EARNING TO LIVE, LIVING TO SERVE. FFA chose Pat Lane as their Sweetheart for the year 1985-86.

Seniors Have Heard...

We have heard that the Steering committee for the Jr.-Sr. Prom has been chosen. The winners of magazine sales and the junior class officers makeup the committee.

We know that the theme of the prom has been chosen. Juniors, was it "Tiptoe Through the Tulips" or "House of the Rising Sun"?

We will ride any Junior who is so weak-willed he jets out information, until Friday, the 13th. Seniors, it's up to you, so get it there and listen.

Each contestant has a \$25 entry fee. The winner will receive a trip, plus a wardrobe from area merchants.

Judges for the coming even tave: Vaughn Monroe, Don Asher-State President of Jaycee's, Betty Robinson-Owner of Kathleen Lowe's Modeling Agency, Jerry Loucheim-Executive of Miss Florida Pageant and Dee Prebancas-State President of Jaycee Auxiliary. Alice Mixon will be this year's coordinator once again.

What the '86 annual will look like.

Faculty players, "Bulter Burke," "Spider" Webb, "Commander" Whitehead, "Red Shorts" Melnik, "Colonial" Sanders, "Harry Red" Davis, "The Reel" "Scratch" Rasco, "Sugar Daddy" Crawford, and "Boy" Carter won by the score of 63-64. The play of the evening was "The Reel" Luke with a majority of the points scored.

The Junior High Faculty beat the Junior High Mustangs and the cheerleaders for the J. H. S. Mustangs were several of the female teachers of the school.

The girls tennis team led by Allison Cant defeated Boca Raton 6-1 at the local court.

Allison, playing first position swamped Boca's number one player, Ann Wimberly in the first position match.

Mary Kate Ponder, Caridad Blanco and Mary Leigh Amrine all won their matches respectively while substitute Maria Iglesias lost her match 6-3.

Band And Glee Club Present Joint Concert

The BGHS Band and Glee Club held its Musical Concert last Tuesday night in the high school gymnasium. This was the first joint performance of the year.

Under the direction of Mr. Fred Stevens, the band began the program with the "Star Spangled Banner." Several marches performed were "French National Defile," "Stella Polaris," "Inglesina," and "New Col-

The Glee Club sang "America Our Heritage" while the band played.

Mrs. Janice Fliehs, director of the Glee Club, was ill several days before the concert. She said "It was left up to the girls to learn the music and they can be proud of themselves."

Soloists in the choral selection, "The Sound of Music," were Jorgi Crews and Suzanne Lindrose. Sherri Burgess was the accompanist.

Other selections of the Glee Club were "Eternal Life," "No Man is an Island," "Green Cathedral," "One Little Candle," and "We Sing Thy Praise."

A shortened performance will be given for the student body.

Harvest Queen Features Beauties

There are approximately 39 Glades-area girls who will compete for the 13th annual Harvest Queen title here, April 2, according to Bill Aspey, general chairman.

The girls will vie for the title now being held by Missan Faye Harris, 18, Pahokee, who won her crown over 48 other aspirants last year.

The contest will be judged on beauty alone. A talent show that will be held in the Belle Glade High School Auditorium, March 26, will have no bearing on the final judging.

In last year's contest Miss Harris also entered the talent competition and finished second to Jorgi Carol Crews, 16, who is not entered in this year's contest to date.

James Normand, president of the sponsoring Jaycee's said Vaughn Monroe will play at the annual ball that will be held at the National Guard Armory, following the coronation festivities at the high school.

Plans are also made to have a teenage dance the same night. As most of the competitors are still attending area high schools, the queen will make a brief appearance at the adult function and then go the teenage affair for the remainder of the evening.

Each contestant has a \$25 entry fee. The winner will receive a trip, plus a wardrobe from area merchants.

Judges for the coming even tave: Vaughn Monroe, Don Asher-State President of Jaycee's, Betty Robinson-Owner of Kathleen Lowe's Modeling Agency, Jerry Loucheim-Executive of Miss Florida Pageant and Dee Prebancas-State President of Jaycee Auxiliary. Students Make Plans For Summer School

Questionnaires were handed out to all students who plan on attending summer school.

Opening date is set for June 15 and will continue through July 28. Registration will be on June 13. Students and teachers will report for duty on June 15. Tuition will be \$36.00 for a full year's credit. No semester courses will be offered. Students can take only one credit. All students must remain in school four hours a day, five days a week for six full weeks.

The only holiday will be on the Fourth of July which will be made up by an additional day at the end of the term.

Junior high students may take two subjects for strengthening but only one for repeat work.

Centers used for summer school sessions are Palm Beach High School, Seacrest High School, Riviera High School and Pahokee High School.

Subjects that may be offered if enough requesters are made in various types of English, Foreign Languages, Home Economics, Mathematics, Science, Social Studies, and Vocational Shop.

JANICE "GRANNY" WHITE LEARNS LINES

Any night from 6:00 to 9:00 P. M. observers have probably noticed some activity stirring in the gymnasium. No, it's not a party, it's the cast of the Senior Play practicing.

The case, along with Mrs. Lanier, has become accustomed to going without dinner and without having school work done. But they will all agree it's well worth it.

Thanks to Eddie Golson, the scenery seems to be quite the thing to set the mood as an eerie castle in the Alps. Constructing the scenery on stage has been done by George (Model S) McDonald.

The lighting and color ideas to help set the mood also, is being done by Scottie Markham.

Gene Hollingsworth with the help of our "Mighty Ninety" is preparing the

sound effects to accompany "Granny" and Model S.

Tanya Croft, chairman of the make-up committee, is making arrangements to make Count Dracula and his family the "real thing."

Others who will assist Tanya are Linda Stewart, Martha Sanchez, Sara Fernandez, Kathy Forgunson and Sue York.

In spite of all the confusion and excitement the cast will be ready to perform on March 24 and 25.

We hear Gene H. always has flat tires coming home from work. Where do you really work Gene?

Boy, Seniors, ya'll sure have a great ROTC club. It's not hard to tell by all the support at the dance.

Lynda S. and Pat W. Palm Beach J. C. isn't as tuff as New Orleans but almost.

Pat L. here's a little tip for you — if you aren't careful your eyes will get stuck.

Hey, Cheryl S., how come your so lucky and have class out the back of your head and didn't allow a hit in four innings.

Neither team scored a run in the scheduled seven innings and the game went into extra innings. Tony Latour referee for the eighth inning. A Trojan player walked and moved to second on a disputed ball. A runner moved him to third making him the only Trojan to reach third base. The runner squeezed home thus defeating the Rams 1-0.

The Rams had the bases loaded twice, but failed to get a run across. Herbert Giese had the only hit of the night for the Rams.

Hey, Mike... do try to be a little more careful in the cafeteria, okay?

Would you believe 11 people in one jeep? Would you Amanda B. Kathy C. Martha Lynn T. McElroy T. Norma R. We hear you like to fight, with boys even.

Next weekend ought to be really big with the Senior Play and the talent contest. See ya'll there.

Along with Altman making the trip were Ivan Willis, Phil Brane, and Lee Richmond.

The Lake Worth Trojans defeated the Rams 3-1 in a soft match on their course.

In spite of Tommy Altman's victory and his fine round of 38, the team was just outplayed by the veteran Trojans.

Thought For The Week

SELF-EXAMINATION — If any speak ill of thee, flee home to thy own conscience and examine thy heart; if thou be guilty, it is a just correction, if not guilty, it is a fair instruction; make use of both, so shalt thou distill honey out of gall, and out of an open enemy create a secret friend.

—Quarles

Photo Of Week

Teachers know how students look during class. Now is a chance to see how teachers look during a faculty meeting. Could it be that Mrs. Gogans is wondering if being a P. Z. teacher is worth all the effort? Miss Crockett is looking to see who threw the spit wad?

Mrs. Littlefield is worried about her supper, that is cooking?

Mrs. LaFlam is sad? Coach Burke is bored to death?

Mr. Stephens is day dreaming?

Mrs. Evans is grading papers while she should be listening?

Mr. Evans is smoking in the classroom no less?

A majority of the teachers are ready to call it a day and go home?

Would you believe that they're HUMAN!!

Teachers Honored At Breakfast

Cadet teachers were honored with a breakfast given by their directing teachers last Thursday. Coordinators, Mrs. Helen Spooner and participating teachers served cookies, donuts and hot chocolate in the elementary gym.

Thursday was the beginning of the week progress evaluation period of the practicing teaching program. The 19 graders observe and participate in class and are required to write evaluation reports each time they teach.
